REPORT ON THE STATISTICS OF COUNTY FINANCES

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation, State House
Boston.*

SIR: — I submit herewith a report on the Statistics of County Finances for the year ending December 31, 1929. The plan of the report is the same as for previous years and consists of the following tables:

- Table No. 1 — Returns of County Treasurers.
- Table No. 2 — Returns of Clerks of Supreme and Superior Courts.
- Table No. 3 — Returns of Clerks of District and Municipal Courts.
- Table No. 4 — Returns of Trial Justices.
- Table No. 5 — Returns of Registers of Probate.
- Table No. 6 — Returns of Registers of Deeds.
- Table No. 7 — Returns of the Recorder and Assistant Recorders of the Land Court.
- Table No. 8 — Returns of Sheriffs.
- Table No. 9 — Returns of Keepers of Jails and Masters of Houses of Correction.
- Table No. 10 — Returns of Probation Officers in Superior, District and Municipal Courts.
- Table No. 11 — Returns of Treasurers of Tuberculosis Hospitals.
- Table No. 12 — Returns of County Aid to Agriculture.

The tables give a summary of the financial returns of the several officers and boards receiving or disbursing public funds.

Table No. 1 is prepared from the returns made by county treasurers and shows receipts and disbursements of that office. Certain other items are expended from revenues in accordance with law, and these amounts are shown in the other tables with appropriate headings and must be read in conjunction with Table 1 in order to arrive at the total receipts and disbursements of all county activities.

County taxes show an increase of \$330,622.59, or 4.32 per cent. Increased revenue is shown in the receipts from fines, costs and fees from Inferior Courts and Trial Justices, and Jailers and Masters of Houses of Correction; in fees from Clerks of Courts; from labor, board, etc., of Jailers and Masters of Houses of Correction; from Training Schools, Agricultural Schools, Hospitals, and from Peddlers' licenses. The greatest decrease is shown in fees from Registers of Deeds, which was \$50,287.89, or 9.92 per cent.

The amount of funded or fixed debt issued during the year shows a decrease over the previous year of \$632,000, or 53.45 per cent. The amount of funded or fixed debt paid was more than \$238,000 in excess of the amount of debt issued.

The expenditures for salaries of county officers and assistants, fixed by law, and clerical assistants in county offices show an increase of less than one per cent.

salaries and expenses of District Courts and Trial Justices increased \$46,338.45, or 4.41 per cent. Criminal costs in Superior Courts decreased \$31,776.38, or 5.36 per cent, and civil expenses in Supreme, Superior, Probate and Land Courts decreased \$24,390.78, or 4.42 per cent. The expenditures for highways, exclusive of the special accounts, increased \$349,279.69, or 18.21 per cent.

The books and accounts of all county officers under the supervision of this department have been examined, and, in addition, many special audits have been made. The accounts, in general, are satisfactorily kept, but there are still some officers who cause unnecessary work to our auditors by neglecting to keep their books posted up-to-date, by having incomplete records, by failing to reconcile bank accounts, and by general carelessness. However, many of the officers realize the necessity of accuracy as to detail, and those who fail to appreciate this necessity are subject to criticism. Where such laxity exists, it sometimes means actual loss of money, besides causing unnecessary work in making the audit. It is very essential that the officers have a thorough knowledge of the laws relative to the disposition of receipts and that they exercise the greatest care in keeping their records.

Improvement has been made, year by year, in keeping expenditures within appropriations, but under our present organization sufficient provision has not been made to record liabilities when contracted, and while no deliberate incurrence of a liability in excess of appropriation can be cited, it occasionally occurs that contracted liabilities are lost sight of, and, therefore, an appropriation is exceeded. This is due to divided responsibility, as the county commissioners have only partial control over certain of the appropriation accounts. A reserve fund has been provided to meet extraordinary or unforeseen expenses, and this should permit the work to be carried on without overdrafts, except in a very few cases; and the exceptional cases can be provided for by the emergency statute now on the books. A more systematic planning of expenditures and a current internal check on contractual obligations should be maintained.

We find that the treasurers are exercising necessary care in withholding payment on bills of previous years, but, wherever there are unpaid bills of previous years which have been paid without an appropriation, the examiners are put to an unreasonable amount of work in checking these bills. While we have been forced to include in the budget each year an item for bills of previous years, there is little or no excuse for continuing this practice. The statutes are clear on this point, specifying that all bills must be presented on or before January 10 of the year following.

If there is an outstanding claim on account of incompleted work, or items of a similar character, notice should be filed with the treasurer, in order that the appropriation account may be debited and accounts payable credited, thus more accurately showing the cost of government in a given year.

I fully appreciate the efforts now being made by the accounting officers but wish to urge the several officers contracting liabilities on the part of the county to cooperate with the treasurers, so that the "unpaid bill" item in the budget may be eliminated or materially reduced.

Respectfully submitted,
THEODORE N. WADDELL, *Director of Accounts.*
